Financing a $22,000 car over 60 months

What this loan costs, what it changes for you, and what to ask before you sign.

The loan you are weighing

Monthly payment

$375.14

60 payments 5.796% APR

What it costs in total

Amount financed	**$19,500.00**
Finance charge (cost of borrowing)	**$3,008.29**
Total of payments	**$22,508.29**
Total paid through this deal (with $4,000.00 down)	**$26,508.29**

What changes for you

Left each month

$1,300.00 → **$924.86**

After your essentials, in a typical month.

Now	**$1,300.00**
With this loan	**$924.86**

ⓘ New-car running costs not included

Insurance, fuel and maintenance would come out of this too.

Savings

$6,000.00 → **$2,000.00**

What stays in the bank once the down payment is paid.

Now	**$6,000.00**
After the down payment	**$2,000.00**

Months of essentials covered: 2.07 months → 0.61 months

Main concern

CONCERN · ILLUSTRATIVE SCENARIO, NOT A PREDICTION

Income stops for two months

In this illustrative scenario (no income for two months), with this loan your savings would run out in month 2, leaving a gap of up to about $3,625.

Savings run out

Month 2

Modelled shortfall

$3,625.42

Also worth knowing

Savings would cover less than one month

After this purchase your savings would cover less than one month of essential costs.

Options worth a look

What-if calculations under stated assumptions. They are not offers or recommendations.

LOWER MONTHLY PAYMENT

A 72-month term instead of 60

Payment −$55.36 **Finance charge +$516.25**

Same rate assumed, ask the lender

LOWER TOTAL BORROWING COST

A 36-month term instead of 60

Payment +$222.04 **Finance charge −$1,009.97**

Same rate assumed, ask the lender

If the rate changes

Each percentage point of interest rate changes the finance charge on this loan by about $552 and the monthly payment by about $9.

Before you sign

1 **ASK THE LENDER**

Lender's buy rate

Dealers can add to the rate the lender approved; knowing the buy rate shows how much of your rate is dealer markup and gives you something to negotiate.
